Polysphere Pool Filtration Balls

Bestway Polysphere Pool Filtration Balls:

Give your pool maintenance routine an environmentally friendly boost! The Bestway Polysphere™ Pool Filtration Balls are a highly efficient and eco-friendly way to keep clean water flowing through your above ground pool without the excess waste. The Polysphere filtration balls are reusable replacements for sand in traditional sand filters with it taking only 28 g (0.06 lbs) of filtration balls to equal the filtering power of 1 kg (2.2 lbs) of sand! Made of recyclable and non-toxic material, these cotton-like filtration balls can last 4-6 months with proper maintenance. Simply place them in the included mesh bag and easily rinse them by hand for the next use. Plus, they enhance your sand pump's efficiency by requiring less pressure, which allows for a higher flow rate for your pump and improved lifespan for your pool and pool filter. Enhance your pool maintenance routine and try an eco-friendly addition.
